Worth Knowing.

Inlaid linoleum when first laid
should be given a coat of good floor
polish made of wax and pure oils free
from acids of any nature. This should
be well rubbed into the linoleum to
fill the pores, then the linoleum should
be polished. When necessary to clean
use a good soap, which must be free
from alkalis, and lukewarm water. Do
not use soda or any of the strong
soaps or cleansing compounds, which
are apt to destroy the finish and color.
Some prefer that the inlaid should be
polished once each month with a good
floor wax, but the soap and water
method is believed to be the best.

Victrola VI, \$25
Other styles \$15 to \$200

Agricultural Department Issues
Foot and Mouth Disease
Bulletin.

Frankfort, Ky., Nov. 10.—Bulletin
No. 17, issued by the State Depart-
ment of Agriculture, now ready for
free distribution, tells the story of
"foot and mouth disease," which is
gradually exterminating cloven-
hoofed animals from 50 per cent. of
the land occupied by civilized peo-
ple.

It exists in Germany, France, Bel-
gium, Denmark, Brazil, Argentina,
the Philippines, Japan, China and
sections of Africa, while in the United
States a fight extending over a
year has driven it from a score of
States and 1-ft the infection only in
one county in Massachusetts and a
large area of Illinois.

The outbreak a year ago cost \$5,
000,000 in the United States to stock
raisers, and it cost Kentuckians
\$133,564.55. The cost in Kentucky
was apportioned as follows: J. H. H.
on county, \$83,792.55; Hardin, \$14-
734.25; Woodford, \$13,553.40; O'd-
hem \$6,472.10; Scott, \$4,663; Bu-
litt, \$4,255.50; J. H. H., \$2,323; La-
rue, \$1,761; Shelby, \$1,404.75; Heir;
\$150; Meade, \$150.

DESTROY BROWN-TAIL MOTH

Contact With Hairs of Insect Causes
Poisonous Rash on Human Be-
ings—Big Menace to Trees.

One of the most serious effects of
the presence of the brown-tail moth
in a community is that of the peculiar
skin disease it may produce. Some of
the hairs of the full-grown caterpillar
are furnished with minute barbs.
When the caterpillars molt these
barbed hairs are shed with the skin
and as the skins become dry and are
blown about by the wind the hairs
may be quite generally disseminated.
When the hairs alight upon the human
skin they cause an irritation, which
upon rubbing may develop into in-
flammation.

Men who come in contact with
these poisonous hairs during their
work in the parasitic laboratory in
Massachusetts, use the following rem-
edy for the brown-tail rash: Carbolic
acid one-half dram, zinc oxide one-
half ounce, lime water eight ounces;

Various Forms of Hairs From Brown-
Tail Moth Caterpillar.

shake thoroughly and work well into
the affected parts. This has proven a
most effective remedy.

According to Doctor Riley, the
brown-tail moth was introduced into
this country from Europe about the
year 1890. The pest has spread rap-
idly over New England and New York
and there is every prospect that it
will continue to spread until it
reaches the middle and western states.
Wherever it goes it will prove a seri-
ous pest to man as well as to his trees
and plants.

Mosquitoes Suspected in 1774.
A manuscript, written by a priest
in 1774, has just been brought to light
in Paris, which indicates that even at
that time the mosquito was suspected of
transmitting diseases, as shown by
the following passage: "An ecclesi-
astic of lively wit told me that he sus-
pected that the fever from which the
inhabitants of this country (Tunis)
suffered, came from the bite of the
mosquito, which, after sucking at an
infected cadaver or a poisonous han-
ger, attacked human beings."

New Form of Camera.
A camera with which motion pic-
tures of the aurora borealis have been
made has been built by a Swedish
scientist.

Daily Thought.
Let a man pray that none of his
workmankind should form a just esti-
mate of him.—Thackeray.

CASTORIA**

CRYING FOR HELP

Lots of It in Hopkinsville But
Daily Growing Less.

The kidneys often cry for help.
Not another organ in the whole
body more delicately constructed.
Not one more im- portant to health.
The kidneys are the filters of the
blood.

When they fail the blood becomes
foul and poisonous.
There can be no health where there
is poisoned blood.

Backache is one of the frequent
indications of kidney trouble.

It is often the kidney's cry for
help. Heed it.

Read what Doan's Kidney Pills
have done for overworked kidneys.

Proof of merit in the following
statement:

F. M. Hall, farmer, Rock Castle
Road, Cadz, Ky., says: "I have
not had any need of a kidney reme-
dy since Doan's Kidney Pills cured
me some years ago. I used two
boxes of this medicine and I think it
is all that is claimed for it. Doan's
Kidney Pills also cured another of
my family of serious kidney trou-
bles."

Price 50¢, at all dealers. Don't
simply ask for a kidney reme-
dy; get Doan's Kidney Pills—he says
that Mr. Hall had, Foster-Milbur
Co., Props., Buffalo, N. Y.

Lazy, That's All.

New York women are lazy house-
keepers. All experiments with public
markets, co-operative food stores and
direct-from-farm-to-kitchen projects
come sooner or later hang up against
the fact that housewives hereabouts
will not take the thriftiest means of
getting food supplies. Every now
and then municipal markets start off
with a flourish. But in a short time
it is found that they are doing mainly
a wholesale business. The housewives
they are supposed to benefit are buy-
ing their food from the corner store
and paying the same old prices, how-
ever high they go. New York women
are too proud to take their baskets
and go to market as do the women of
Pittsburgh. Women in this city talk
"high cost of living." It is the fashion
to groan about it. But it is not the
fashion to fail to and help reduce it.—
New York Times.

Acid Pyrography.

Artistic designs can be burned in
wooden surfaces by the use of an
acid solution formulated properly
with equally as good results as are
obtained with the pyrographic needle.
A 20 per cent solution of sulphuric
acid should be mixed in an ordinary
ink bottle, and the liquid tinted with
red ink or other coloring matter, so
that the acid line will be visible when
it is applied.

After the design has been printed
or drawn on the wood surface a tal-
lor's iron should be rubbed carefully
over it until the desired shade is ob-
tained. The acid should be painted
over the design with a small camel's
hair brush.—World's Advance.

Sugar, Sir?

Sugar was not known as an article
of commerce among the Greeks, and
it is not mentioned in the Bible, show-
ing that it was not known to the He-
brews. The sugar cane is believed to
have grown wild in India, and while
no reference to sugar can be found to
300 A. D. there is no doubt that the
juice of the cane was in use long be-
fore that period. The art of the evapo-
ration of the juice to a solid substance
is an Indian invention of about the
seventh century, and was spread all
over the then known world. The Arabs
and Egyptians prepared candy at an
early date by recrystallizing the sugar
obtained from the pressed cane.

His Unsatisfied Yearn.

"I have long desired to be a sheriff
and capture a blonde wood nymph
who in form and trimmings resembled
the Venus de Milo," confessed J.
Fuller Gloom. "Two obstacles have
prevented. I couldn't be elected sher-
iff if there was no other candidate in
the race against me, and there are
so blonde wood nymphs running loose
anywhere except in the imaginations
of our correspondents.—Kansas City
Star.

To Match Hangings.

The table seats for the furniture of
your room may be made to match the
hangings by cutting out small motifs
of cretans and applying them to the
scarf ends. Place them on the mate-
rial in an attractive way and haste.
They can either be sewed with an
over and over stitch around the edge
or buttonholed in place. If, however,
you wish a quicker method, machine
stitch close to the edge around the
entire motif.

Concrete.

Concrete is made of a mixture of
pebbles, stones and sand or other suit-
able material, to which is mixed a
small proportion of lime or cement.
Owing to the gradual setting and hard-
ening of this lime or cement, the mass
changes from a semifluid to a hard,
compact substance, as hard as, or
harder than the best building stone
produced by nature.

Six Fail to "Come Back."

A half-dozen Democratic Repre-
sentatives who served in the last
Legislature and were among the
leaders of the body were defeated
for re-election and will be succeeded
by Republicans in Frankfort next
winter. They include John F. White,
of Madison county; Stanley F. Reed,
of Mason county; Elmer L. Brown,
of the Owensboro district; G. P. Dur-
rett, of the Green-Taylor district,
and John Drescher and W. T. Mc-
Nally, of the Louisville delegation.
It is understood that Representative
Drescher may contest the election of
his Republican opponent, in which
event it will be tried out before the
next House.—Times.

Will pay highest market price for
our corn. Want 50,000 bushels.

(Incorporated.)

The Colds of Mankind Cured

By Pines!

Have you ever gone through a
typical pine forest when you had a
cold? What a vigorous impulse it
gives! How you opened wide your
lungs to take in those invigorating
and mysterious qualities. Yes, Dr.
Bell's Pine-Tar-Honey possesses
those stimulating qualities and over-
comes hacking coughs. The inner
lining of the throat is strengthened
in its attack against cold germs.
Every family needs a bottle con-
stantly at hand. 25c.—Advertise-
ment.

Patterson's Son Dead.

Malcolm C. Patterson, aged 30, son
of the Senatorial candidate M. R.
Patterson, of Tennessee, died Tues-
day. His father canceled his speak-
ing dates for this week.

Did Good Work.

One of the most effective speakers
in the campaign in this county was
Jas. B. Allensworth, of Hopkinsville.
A hurry call was sent Mr. Allens-
worth during the last few days of
the campaign and at a personal
sacrifice he at once responded to the
call of the campaign committee, say-
ing he was ready to go any time.
His speeches were well received and
created enthusiasm everywhere.
Mr. Allensworth's unsuccessful race
for commonwealth's attorney in the
Hopkinsville district appears to have
left no sore spots on him as a Demo-
crat and he has in this campaign
made hundreds of friends in Todd
county, in addition to those he al-
ready had, who yet hope to see him
honored as his party loyalty and in-
tegrity merits.—Todd County Times.
